# Wisconsin Healthcare Stability Plan (WIHSP): What is it?

**Goal:** create a stable individual insurance market where individuals have a choice of health plans with affordable premiums

**How:** WIHSP reimburses insurers for a portion of the high cost claims they paid for individuals in a given plan year

- 15 individual market insurers
- Payment parameters are established to define the portion of costs that are reimbursed
- Payment parameters can change from year to year and are established by May 15<sup>th</sup> before the applicable plan year

**Funding:** federal pass-through funds and state General Purpose Revenue (GPR)

- Pass-through funds represent the estimated federal savings available from reduced premiums
  - Reduced premiums means the federal government pays less in premium tax credits
- WIHSP is limited to \$230 million (*state & federal funds*)
