Stop putting corporations and third parties who are educated in the bottom line, profit mind thinking in charge of health by letting them own dental offices. Doctors' diagnosis and knowledge should not be commoditized. Sorry to tell you but if you or your loved ones had an infection in your face related to the oral cavity you wouldn't call Delta Dental of Wisconsin to remedy your problem. DD of WI did not go to doctorate school and is not clinically trained to help you nor keep you healthy.

**QUIT PUTTING INSURANCE COMPANIES IN THE DRIVER'S SEAT OF
HEALTHCARE!!!!**

CONFLICT OF INTEREST = INSURANCE COMPANIES/INDEMNITY PLANS!!!!

I and all of my doctor colleagues are 100% the insurance company owning the healthcare business, insurance companies are not entrusted to keep people healthy. They keep their bottom lines healthy by taking \$ from patients and doctors. Without patients and doctors they would not exist.

Dr. Elizabeth Carter, DDS
Boise, Idaho
