**Subject:** Re: American Family's attempt to restructure

Barry,

I have read all of the documents you have sent me. I have been in touch with American Family executives.

My voting rights will be significantly reduced by the proposed changes. Their documentation says 13%. It is in fact much more than that.

My wife and I have each received ballots for the proposed change. Under the restructure, we will only receive one ballot for our family.

The commissioner should turn down their request to your office for approval, based on this fact alone.

Patrick J. Jordan

I encourage your office to delay or prevent the attempt of this company to restructure. It is not in the best interest of policy holders.

I will not be their only customer to leave them as a provider of Life insurance, auto insurance, and home insurance. They should be required to poll their customer's prior to the vote, to determine how many customers will be leaving them as a result of this change. If this is not done, they cannot determine the financial impact to the company, and the remaining policy holders.

This is the first step in moving AmFam from the state of Wisconsin, and out from under your control.

Thank you for your attention to this matter,

Lucy Jordan

American Family policy holder
