**Subject:** Aspirus Form A filing

Dear Mr. Mancusi-Ungaro,

Hope this emails finds you well. Last Friday, January 4, your office recommended we provide a less redacted public filing to help complete a review of our Form A at the timeline requested by Wisconsin Physicians Service Insurance Corporation (“WPS”), AAHPWI, and us in previous discussions. In response to your office’s recommendations, we updated our Public Form A filing this week. Our updated public Form A went from approximately 50 pages to 515 pages in the interests of the requested review timeline. We will send you an updated Form A electronically on Monday morning and a memorandum detailing updates. Would you prefer to also have a hard copy (tabbed and organized) sent to your Office for your records? We are happy to accommodate any of your requests at your convenience.

One point in our call last Friday was in connection with final executed agreements in the public Form A being partially redacted. In consideration of the recent increased risk of cybersecurity issues, fraud, and forgery, we felt it was best to provide a partial redaction to signatures. As required by Ins. 40.11(2)(a)., the manually signed copies of the Form A provided in full including confidential exhibits were provided without redaction. We do not want to stall or impede your office’s review in any way and would like to continue be responsive to your office’s requests. If providing redacted signatures again in our updated Form A will impact our review from a timing perspective in any way, please let me know.

I am available Monday morning to speak if you have any additional questions or comments regarding our Form A. My number is below. Thank you again for your office’s assistance in our Form A review. Hope you have a great weekend!

Thank you,  
Syed
