Steve,

I hope all is well as this attachment reaches you. Attached is my response to the wrong doings of this merger. I hope this will provide some inside as to how this has been crafted from the beginning. In anything and everything we do, Ethics and Truth should prevail. If these cannot take presidency in the world, whether it be business or personal, we as a society are doomed to fail. Members of Western have been misled, sheltered and treated like mushrooms. It is my hope and prayer the powers to be can protect the Truth, Love and Loyalty of the Unity of Western.

Best regards
