- B. The preparation of financial statements in conformity with statutory accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.
- C. Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by daily pro rata methods for direct businesses and are based on reports received from ceding companies for reinsurance.

In addition, the Company uses the following accounting policies:

- 1. Bonds are stated at amortized cost, with amortization being applied on a straight-line basis.
- 2. Stocks and mutual funds are valued at their current market value.
- 3. Real estate is valued at original cost less depreciation, with depreciation being applied on a straight-line basis.
- 4. Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred, but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.

The Statements of Statutory Accounting Principles define levels within the hierarchy based on the reliability of inputs as follows:

Level 1 - Unadjusted quoted prices for identical assets and liabilities in active markets;

Level 2 - Quoted prices for similar assets and liabilities in active markets (other than those included in Level 1) which are observable for the asset or liability, either directly or indirectly; and

Level 3 - Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

The following table sets forth admitted assets measured and reported at fair value in the statement of admitted assets, liabilities, and policyholders' surplus and the respective levels to which the fair value measurements are classified within the fair value hierarchy as of December 31, 2022 and 2021:

	<u>12/31/22</u>	<u>(Level 1)</u>	<u>(Level 2)</u>	(Level 3)	<u>Total</u>

Stock securities listed on a national market or exchange are valued at the last sales price, or if there is no sale and the market is still considered active, at the last transaction price before year-end. Such securities are classified within Level 1 of the valuation hierarchy.

Stocks and mutual funds in Level 3 consist of the Company's investment in WRC. The fair value is determined based on the most recent audited financial statements of WRC as described in Note 1.

There were no realized gains or losses recognized in the statement of operations - statutory basis on the WRC stock for the years ended December 31, 2022 and 2021.
