#### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the Company are presented on the basis of accounting practices prescribed or permitted by the Insurance Department of the State of Wisconsin.

The Insurance Department of the State of Wisconsin recognizes only statutory accounting practices prescribed or permitted by the State of Wisconsin for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the Wisconsin Insurance Law. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Wisconsin.

This annual statement has been completed in compliance with NAIC requirements with the following exception: Pursuant to s. Ins 6.12 (3), Wis.Adm. Code, and s. 601.42 (3), Wis. Stat., Mr. Howard Schwartz was deemed qualified by the Wisconsin Commissioner of Insurance to sign the 2022 statement of actuarial opinion on behalf of this company. This individual does not meet the definition of a "qualified actuary" according to the NAIC Annual Statement Instructions. The monetary effect on net income and statutory surplus as a result of this deviation from NAIC requirements is indeterminable.

The Company received approval from the Wisconsin Insurance Department to prepare its statutory financial statements using the following permitted statutory accounting practices, which differs from prescribed statutory accounting practices.

Mutual Insurance Companies that hold Wisconsin Reinsurance Corporation (WRC) common and/or preferred stock shall value this investment based on the most recent WRC audited financial statements. Accordingly, the valuation included in the company's December 31, 2022 and 2021, financial statements are based upon WRC's financial statements as of December 31, 2021 and 2020, respectively.

A reconciliation of the Company's net income and capital surplus between NAIC SAP and practices prescribed and permitted by the State of Wisconsin is shown below:

- The preparation of financial statement in conformity with statutory accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.
- Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by daily pro rata methods for direct businesses and are based on reports received from ceding companies for reinsurance.

In addition, the Company uses the following accounting policies:

- Short-term investments are stated at cost.
- 2. Bonds are stated at amortized cost, unless the bond is designated a rating of NAIC 3 or lower, in which case it is valued at the lower
- of amortized cost or fair value.

  Stocks and mutual funds are valued at their current market value.
- Real estate is valued at original cost less depreciation, with depreciation being applied on a straight-line basis.
- Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred, but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.

The Statements of Statutory Accounting Principles define levels within the hierarchy based on the reliability of inputs as follows:

Level 1 - Unadjusted quoted prices for identical assets and liabilities in active markets;

Level 2 - Quoted prices for similar assets and liabilities in active markets (other than those included in Level 1) which are observable for the asset or liability, either directly or indirectly; and

Level 3 - Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

The following table sets forth admitted assets measured and reported at fair value in the statement of admitted assets, liabilities, and policyholders' surplus and the respective levels to which the fair value measurements are classified within the fair value hierarchy as of December 31, 2022 and 2021:
