1. Summary of Significant Accounting Policies and Going Concern

Mutual of Wausau Insurance Corporation is a property and casualty insurance company domiciled in the state of Wisconsin, organized under Chapter 611 of the Wisconsin insurance statutes. The Company converted to domestic status under Chapter 611 effective January 1, 2011. Coincident with the conversion, the Company changed its name to Mutual of Wausau Insurance Corporation. Prior to 2011, the Company operated as Wausau-Stettin Mutual Insurance Company.

A. Accounting Practices

The accompanying statement has been prepared in conformity with the NAIC *Accounting Practices and Procedures Manual*. Statutory accounting practices vary in some respects from U.S. generally accepted accounting principles (GAAP). The more significant of these differences include the following:

- 1. Premium income is recognized on a pro-rata basis over the period for which insurance protection is provided. However, the related acquisition costs, including commissions, are charged to current operations as incurred. Under GAAP, commissions and other policy acquisition costs are recognized as an expense over the periods covered by the policies.
- 2. Similarly, the commissions earned on reinsurance ceded are credited to income at the time the premium is ceded.
- 3. Nonadmitted assets, principally furniture and equipment, prepaid expenses and premiums receivable over 90 days past due, are excluded from the statement of admitted assets, liabilities and policyholders' surplus. The net change in such assets is charged or credited directly to surplus. Nonadmitted assets were \$46,927 and \$40,263 as of December 31, 2022 and December 31, 2021, respectively. Under GAAP, all property and equipment is recognized as an asset, net of accumulated depreciation.
- 4. Investment securities are carried at values prescribed by the National Association of Insurance Commissioners (NAIC). Generally, stocks and mutual funds are carried at fair value, and bonds are carried at amortized cost. Unrealized gains and losses resulting from changes in market value of stocks and mutual funds and some bonds are credited or charged directly to surplus.

Under GAAP, securities classified as held-to-maturity are carried at amortized cost and securities classified as trading or available-for-sale are carried at fair value. Unrealized holding gains and losses are reported in income for those securities classified as trading and as a separate component of unassigned surplus for those securities classified as available for sale.

- 5. Assets and liabilities relating to reinsurance ceded transactions are netted with the respective accounts rather than shown on a separate gross basis in the financial statements.
- 6. Deferred income taxes are recorded for book-to-tax timing differences. However, recognition of deferred tax assets may be limited by nonadmitted asset criteria. In addition, the net change in deferred income taxes is charged or added directly to surplus.

Under GAAP, all deferred income taxes, subject to valuation allowances are recognized in the statement of income.

- 7. Comprehensive income is not reflected in accordance with GAAP. Under GAAP, comprehensive income is considered a separate component of surplus.

The effects of any variance between generally accepted accounting principles and the above policies on the accompanying financial statements have not been determined.

Investments:

Realized gains and losses on the sale or maturity of investments are determined on the specific identification basis, and are included in income. In determining realized gains and losses, original cost is used for stocks and mutual funds, and amortized cost is used for bonds.

Property and Equipment:

Property and equipment are carried at cost. Depreciation is computed on the basis of estimated useful lives under the straight-line method. When properties are retired or otherwise disposed of, the cost is removed from the asset account, and the corresponding accumulated depreciation is removed from the related allowance account. Gain or loss on sales and retirements is reflected in earnings.

Furniture and equipment are considered nonadmitted assets for statutory financial statement reporting purposes. Depreciation is calculated on these assets and charged to expense. The net change in book value (cost less depreciation) is charged or credited directly to surplus.

Unpaid Losses:

The liability for unpaid losses is stated net of the related reinsurance recoverable. The balance includes estimates for reported losses, on a case by case basis, as well as estimates for unreported losses based on past experience. Such liabilities are necessarily based on estimates and, while management believes that the amounts are adequate, the ultimate liability will differ from the amounts provided. The methods for making such estimates are reviewed annually, and any adjustments are reflected in income currently.

Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern (Continued)

Unearned Premiums:

Unearned premiums are calculated on the exact day basis and are shown net of ceded reinsurance.

Reinsurance Ceded:

The Company accounts for its reinsurance premiums on the accrual basis. Reinsurance accruals are calculated based on the related contract formulae less deposit premiums.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of statutory financial statements requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Estimates that are particularly susceptible to significant change in the near-term are the liabilities for unpaid losses and unpaid loss adjustment expenses. Accordingly, actual results could differ from those estimates.

20. Fair Value Measurements

- A. Fair Value Measurement

The NAIC SAP defines fair value, establishes a framework for measuring fair value, and outlines the disclosure requirements related to fair value measurements. The fair value hierarchy is as follows:

- Level 1 - Quoted Prices in Active Markets for Identical Assets and Liabilities: This category for items measured at fair value on a recurring basis includes exchange traded preferred and common stocks. The estimated fair value of the equity securities within this category are based on quoted prices in active markets and are thus classified as Level 1.

Notes to the Financial Statements

20. Fair Value Measurements (Continued)

- Level 2 - Significant Other Observable Inputs: This category for items measured at fair value on a recurring basis includes bonds, preferred stocks and common stocks which are not exchange-traded. The estimated fair values of some of these items were determined by independent pricing services using observable inputs. Others were based on quotes from markets which were not considered to be actively traded.
- Level 3 - Significant Unobservable Inputs: The Company has no assets or liabilities measured at fair value on a recurring basis in this category.

The estimated fair values of bonds and short-term investments, preferred stocks, and common stocks (investments) are based on quoted market prices, where available. The Company obtains one price for each security primarily from its custodian, which generally uses quoted market prices for the determination of fair value. For securities not actively traded, the Company obtains market prices from their investment advisor who observes the market for similar securities. As the Company is responsible for the determination of fair value, it performs quarterly analysis on the prices received from the custodian to determine whether the prices are reasonable estimates of fair value. Specifically, the Company compares the prices received from the custodian to prices reported by its investment advisor.

In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

(1) Fair value measurements at reporting date

The following table presents information about the Company's financial assets that are measured and reported at fair value at December 31, 2022, in the statutory basis statements of admitted assets, liabilities, and capital and surplus according to the valuation techniques the Company used to determine their fair values:

REGNIER

CONSULTING GROUP, INC.

STATEMENT OF ACTUARIAL OPINION
ON THE PROPERTY AND CASUALTY LOSS RESERVES
FOR THE YEAR ENDED DECEMBER 31, 2022

MUTUAL OF WAUSAU INSURANCE CORPORATION

IDENTIFICATION

I, Steven J. Regnier, am the President of Regnier Consulting Group, Inc. I was appointed by the Board of Directors of Mutual of Wausau Insurance Corporation ("Company" or "Mutual") on March 8, 2022 to render this opinion. I meet the definition of a Qualified Actuary per the NAIC Annual Statement Instructions -- Property and Casualty, Actuarial Opinion. I have provided my Qualification Documentation to the Board of Directors through the Company's management. The loss and loss adjustment expense reserves are the responsibility of the Company's management. My responsibility is to express an opinion on the loss and loss adjustment expense reserves based on my actuarial analysis.

SCOPE

I have examined the reserves listed in Exhibit A which reflect the Loss Reserve Disclosure items (8 through 13.2) in Exhibit B and reviewed information provided to me through the date of this opinion. These reserves are shown in the Annual Statement of the Company as prepared for filing with state regulatory officials as of December 31, 2022.

In forming my opinion on the loss and loss adjustment expense reserves, I relied upon data prepared by Tyrrell Wirkus, Financial Controller and Sean Sarver, Vice President of Claims. I evaluated that data for reasonableness and consistency. I also reconciled that data to Schedule P--Part 1 of the Company's current Annual Statement. In other respects, my examination included the use of such actuarial assumptions and methods and such tests of the calculations as I considered necessary.

OPINION

In my opinion, the amounts recorded in the Annual Statement for the sum of items 1 and 2 and the sum of items 3 and 4 as shown in Exhibit A:

- A. meet the requirements of the insurance laws of Wisconsin.
- B. are consistent with reserves computed in accordance with accepted actuarial standards and principles.
- C. make a reasonable provision for all unpaid loss and loss adjustment expense obligations of Mutual of Wausau Insurance Corporation under the terms of its contracts and agreements.

The OPINION rendered above is a Determination of Reasonable Provision.

RELEVANT COMMENTS

Risk of Material Adverse Deviation

I have discussed the major risk factors underlying the variability of their loss experience with Company management. They believe that the greatest sources of risk relate to catastrophic weather events, geographic concentrations of exposure and changes in the frequency and severity of reported data. I concur with the Company's assessment of these major risk factors and based on known events as of the date of this opinion I am not aware of any such risks, alone or in combination, that would materially impact the loss and loss adjustment expense reserves at December 31, 2022.

In my opinion there are no significant risks and uncertainties that could reasonably result in material adverse deviation in the loss and loss adjustment expense reserves. The absence of such risk factors does not imply that factors will not be identified in the future as having been a significant influence on the Company's reserves. In consideration of the intended use of this opinion for the purpose of solvency monitoring, as well as the financial condition of the Company, I believe that \$3,400,000 which is 17% of surplus would be material for this Company.

The materiality standard was calculated as twenty percent of the difference between the Total Adjusted Capital and the Company Action Level risk based capital. In my opinion, an adverse deviation equal to a twenty percent reduction in the difference between the Total Adjusted Capital and the Company Action Level risk based capital would be material.

Exhibit B Disclosure Items

Salvage and Subrogation

The Company's reserves are stated gross of anticipated salvage and subrogation recoveries.

Discounting

The Company does not discount loss and loss adjustment expense reserves.

Pools and Associations

The Company has no reserve exposure to voluntary or involuntary underwriting pools or associations.

Asbestos and Environmental

The Company has not provided coverage that could reasonably be expected to produce material levels of asbestos and/or environmental liability claims activity.

Extended Loss and Expense Reserves

The Company does not have any extended loss and expense exposure.

Reinsurance

Based on discussions with Company management, I am not aware of any reinsurance contract that either has been or should have been accounted for as retroactive reinsurance or financial reinsurance.

Ceded loss reserves are with Homestead Mutual Insurance Company (Homestead), a non-rated affiliate, Wisconsin Reinsurance Corporation, a non-rated unaffiliated company and Travelers Indemnity Company, an A++ rated company by A.M. Best. There are no uncollectible reinsurance balances and no reinsurance recoverables in dispute. Therefore, reinsurance collectability does not appear to be an issue.

IRIS Ratios

I reviewed values 11, 12, and 13 used in the NAIC Early Warning Test (IRIS Ratios) and each of the test results was within its acceptable range.

Unearned Premium for Long Duration Contracts

The Company writes no policies or contracts related to single or fixed premium policies with coverage periods of thirteen months or greater that are non-cancelable and not subject to premium increase.

Methods and Assumptions

During the past year, changes made in the actuarial assumptions and methods were minor and did not have a material impact on my projection of the loss and loss adjustment expense reserves.

COVID-19 Considerations

Based on discussions with Company management, I am not aware of any material impacts to the Company's loss and loss adjustment expense reserves as a result of COVID-19.

Other Relevant Comments

Mutual of Wausau Insurance Corporation (Mutual) and Homestead Mutual Insurance Company (Homestead) entered into an affiliation agreement effective as of January 1, 2015. Mutual reinsures and Homestead cedes all liabilities incurred in connection with all insurance policies issued by Homestead that are in-force as of and issued after January 1, 2015. All prior year development on any insurance policies issued by Homestead is not covered by the affiliation agreement.

Further, Homestead reinsures and Mutual cedes to Homestead its proportional share of all liabilities incurred in connection with insurance policies (including those ceded by Homestead and assumed by Mutual) on which Mutual is subject to liability and which are in-force as of and subsequent to January 1, 2015. All prior year development on any insurance policies issued by Mutual is not covered by the affiliation agreement.

My review was limited to the items noted in Exhibit A: SCOPE and subject to Exhibit B: DISCLOSURES and did not include an analysis of any income statement or other balance sheet items. My opinion on the reserves is based on the assumption that all reserves are backed by valid assets which have suitably scheduled maturities and/or adequate liquidity to meet cash flow requirements.

I have neither examined the reinsurance treaties of the Company nor formed an independent opinion as to the risk transfer of those treaties. My estimates of the loss and loss adjustment expense liabilities presume that the Company has properly accounted for its historical reinsurance programs.

It should be noted that reserve calculations deal with the inherent uncertainty of future contingent events. While I believe the reserves represent a reasonable provision based on the appropriate application of actuarial techniques to the available data, there can be no guarantee that the actual future payments will not differ from the carried reserve values.

This Statement of Actuarial Opinion is solely for the use of, and only to be relied upon by, the Company and the state insurance department(s) with which it files its Annual Statement.

An actuarial report and any underlying actuarial work papers supporting the findings expressed in this Statement of Actuarial Opinion will be provided to the Company to be retained for a period of seven years in the administrative offices and available for regulatory examination.
