2007 Property & Casualty Market Conduct Annual Statement

The Market Conduct Annual Statement (MCAS) is an analysis tool that states can use to review market activity of the entire insurance marketplace in a consistent manner and to identify companies whose practices are outside normal ranges. For the 2007 Property & Casualty MCAS, licensed companies with at least \$50,000 in subject homeowner's and/or private passenger automobile premium were required to participate in the project in Wisconsin. A total of 193 companies participated in the project and OCI received 169 private passenger automobile statements and 124 homeowner's statements.

Statewide averages are calculated for seven categories for both the Private Passenger Automobile and Homeowners portions of the Property & Casualty MCAS. The following statewide averages and charts indicating where the number of reporting companies whose ratios fall within various ranges are for informational purposes only and do not represent standards for market behavior. This information does not establish compliance or non-compliance. MCAS data, company specific and/or statewide averages, may not be used in any form of company advertising or marketing.
