## 2012 Life & Annuity Market Conduct Annual Statement

The Market Conduct Annual Statement (MCAS) is an analysis tool that states can use to review market activity of the entire insurance marketplace in a consistent manner and to identify companies whose practices are outside normal ranges. For the 2012 Life & Annuity MCAS, licensed companies with at least \$50,000 in subject life insurance premium and/or annuity considerations were required to participate in the project in Wisconsin. A total of 243 companies participated in the project.

Statewide averages are calculated for up to seven categories depending on the type of insurance reported in the Life & Annuity MCAS. The following statewide averages and charts indicating where the number of reporting companies whose ratios fall within various ranges are for informational purposes only and do not represent standards for market behavior. This information does not establish compliance or non-compliance. MCAS data, company specific ratios and/or statewide averages, may not be used in any form of company advertising or marketing.
