**INSTRUCTIONS FOR  
MEDICAL MALPRACTICE INSURANCE REPORT  
FORM 26-035**

The information requested on Form 26-035, Part I and Part II, is to be reported on a **policy year** basis. Record the requested data for each of the years listed for each of the classifications of medical malpractice insurance. The information to be reported is for policies covering insureds located in Wisconsin.

There is one copy of Form 26-035, Part I for policy years 2006 through 2010 and one copy of Form 26-035, Part II for policy years 2011 through 2015. It is your responsibility to make copies of these forms for each of the 12 classifications given in the chart below. These are based on ISO classifications. You will be required to fill in the classification number for the class being filed. File only those forms for the classifications in which you have written coverage. If you meet or exceed either the \$300,000 threshold for the entire line of medical malpractice insurance or the \$50,000 threshold for individual classifications, a form must be filed for all classifications in which premiums are written whether or not the thresholds are met for all classifications. Classifications in which no premiums are written need not be reported to our office.

All information entered on these forms should pertain only to medical malpractice insurance unless otherwise noted.

**Line 1** Enter the amount of net investment gain or loss and all other income gain or loss for calendar year 2016 allocated to medical malpractice insurance in **Wisconsin**, computed by the formula used in the annual Insurance Expense Exhibit for allocation among lines of business.

**Line 2** Enter the amount of incurred loss adjustment expense for calendar year 2016 attributable to medical malpractice insurance in **Wisconsin**.

**Line 3** Enter the amount spent on all expenses for calendar year 2016 directly attributable to medical malpractice insurance in **Wisconsin** except for the loss itself and the loss adjustment expense. If this data is not kept on an individual line basis, use the following formula or a similar formula to allocate expenses to medical malpractice insurance:

$$\frac{\text{Total medical malpractice premiums written}}{\text{Total company premiums written}} \times \text{All expenses except loss adjustment expense}$$

The above formula works as follows: take the total amount of premiums written on medical malpractice insurance policies and divide this by the total amount of premiums written for the entire company for all lines. Multiply this number times the total amount spent on all expenses except loss adjustment expense.
