

Notes to Market Share Tables for All Companies

The amounts reported for direct premiums written for life lines of business do not agree with the amounts reported in Table D of the Wisconsin Insurance Report as the information in Table D includes dividends used for renewals and paid-up additions while the Market Share Report excludes the dividends.

The companies listed for property and casualty lines of business do not agree to the number of insurers writing a line of business as reported in Table E of the Wisconsin Insurance Report because Table E of the Wisconsin Insurance Report only counts companies who reported direct premiums written. Not all companies reported direct premiums written. The Market Share Tables for All Companies also reports direct premiums earned and direct losses incurred which in total ties to Table D of the Wisconsin Insurance Report.
