NOTES TO FINANCIAL STATEMENTS

NOTE 1 Summary of Significant Accounting Policies and Going Concern
A. Accounting Practices

The accompanying financial statements of the Company are presented on the basis of accounting practices prescribed or permitted by the Insurance Department of the State of Wisconsin.

The Insurance Department of the State of Wisconsin recognizes only statutory accounting practices prescribed or permitted by the State of Wisconsin for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the Wisconsin Insurance Law. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Wisconsin.

The Company received approval from the Wisconsin Insurance Department to prepare its statutory financial statements using the following permitted statutory accounting practice, which differs from prescribed statutory accounting practices.

Mutual Insurance Companies that hold Wisconsin Reinsurance Corporation (WRC) common and/or preferred stock shall value this investment based on the most recent WRC audited financial statements. Accordingly, the valuation included in the Company's March 31, 2023 and December 31, 2022, financial statements are based upon WRC's financial statements as of December 31, 2021.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with statutory accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by daily pro rata methods for direct businesses and are based on reports received from ceding companies for reinsurance.

In addition, the Company uses the following accounting policies.

1. Short-term investments are stated at cost.
2. Bonds are stated at amortized cost, unless the bond is designated a rating of NAIC 3 or lower, in which case it is valued at the lower of amortized cost or fair value.
3. Stocks and mutual funds are valued at their current market value.
4. Real estate is valued at original cost less depreciation, with depreciation being applied on a straight-line basis.
5. Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred, but not reported. Such liabilities are necessarily based on assumptions and estimates while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.

B. Statements of Statutory Accounting Principles establish a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizing the use of unobservable inputs by requiring that the most observable inputs be used when available. The Statements of Statutory Accounting Principles define levels within the hierarchy based on the reliability of inputs as follows:

Level 1 – Unadjusted quoted prices for identical assets and liabilities in active markets;

Level 2 – Quoted prices for similar assets and liabilities in active markets (other than those included in Level 1) which are observable for the asset or liability, either directly or indirectly; and

Level 3 – Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

Certain bonds are carried at the lower of amortized cost or fair value. The bonds listed above are those that have been recognized at fair value. Fair value measurements are obtained from an independent pricing service. The fair value measurements consider observable data that may include dealer quotes, benchmark yields, reported trades, issuer spreads, bids, offers, benchmark securities, two-side markets, reference data, and industry and economic events, among other things. These securities are classified within Level 2 of the valuation hierarchy.

Stock securities listed on a national market or exchange are valued at the last sales price, or if there is no sale and the market is still considered active, at the last transaction price before year-end. Such securities are classified within Level 1 of the valuation hierarchy.

Stocks and mutual funds in Level 3 consist of the Company's investment in WRC. The fair value is determined based on the most recent audited financial statements of WRC as described in Note 1.

There were no realized gains or losses recognized in the statement of operations – statutory basis on the WRC stock for the period ended March 31, 2023 and 2022. Unrealized (losses) gains totaling \$0 and \$0 for the period ended March 31, 2023 and 2022, respectively, are included as an element of the adjustment to surplus. There were no acquisitions or sales of the WRC stock during the period ended March 31, 2023 and 2022. There were also no transfers in and/or out of Level 3 for the period ended March 31, 2023 and 2022. The only change to the value of the WRC stock relates to the unrealized gains (losses) above.

C. Aggregate fair value for all financial instruments and the level within the fair value hierarchy in which the fair value measurements in their entirety fall.

Type of Financial Instrument	Aggregate Fair Value	Admitted Assets	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Not Practicable (Carrying Value)
Preferred Stock	\$ 96,000	\$ 96,000			\$ 96,000
