Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of 1st Auto & Casualty Insurance Company (the Company) are presented on the basis of accounting practices prescribed or permitted by the Office of the Commissioner of Insurance of the State of Wisconsin (OCI).

The OCI recognizes only statutory accounting practices prescribed or permitted by the state of Wisconsin for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under Wisconsin Insurance Law. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Wisconsin.

The Service Agreement between WRC and its subsidiary 1st Auto has been amended to allow WRC to charge to 1st Auto eighty percent (80%) of the capital costs associated with the purchase of a new administration system over a fifteen-year period starting with the placed in service date for each implementation. All direct expenses associated with 1st Auto's use of the system are allocated one hundred percent (100%) from WRC to 1st Auto. Under statutory accounting guidance, one hundred percent (100%) of the capital charges would be charged to 1st Auto over a five-year period. The Office of the Commissioner of Insurance has permitted this practice. The Company's risk-based capital would have triggered a regulatory event at the end of 2022 had it not used this permitted practice.

D. Going Concern

The Company has historically relied on reinsurance arrangements with its Parent, Wisconsin Reinsurance Corporation (WRC), to partially support underwriting losses associated with its personal and commercial auto business. Continued underwriting losses caused by increasing claims costs in recent years along with losses to WRC's surplus in the last two years resulting from severe convective storm activity in the Midwest has raised substantial doubt about the Company's ability to continue as a going concern within one year following the date of the financial statements. The Company is in the midst of reducing its exposures through underwriting, agent/agency management and nonrenewals of select business. It has also taken substantial premium rate actions in recent months. Due to the Company's financial condition, the Wisconsin Office of the Commissioner of Insurance (OCI) has placed the Company in rehabilitation. A rehabilitation plan has been developed and approved, and the Company is currently in the process of implementing the plan.

The re-estimation of unpaid losses and loss adjustment expenses is principally related to the private passenger auto liability line of business. Increases and decreases of this nature occur as a result of claim settlements during the current year and as additional information regarding individual claims is received, resulting in changes from the original estimates of the claims' cost. Recent loss development trends are also taken into consideration when evaluating the overall adequacy of the unpaid loss and loss adjustment expenses.
